Sir,

Agriculture - Failure of crops due to untimely rains --- Grant of land revenue concessions - Report.

Endorsement No. 3687-F-41-1, dated 15-12-1941 from the - Government, Revenue Department.

******

On the representations received from the public regarding the failure of crops in this district due to untimely rains in this fasli, enquiries were instituted in that regard early in September 1941. The investigation held has revealed that in - the Mangalore and the Puttur Divisions no wet lands remained -- uncultivated and that no crops had failed for want of rains. In the Coondapoor Division, however, many of the 'bettu' (III class) fields, especially in the interior villages, were left uncultivated and where cultivation was done in such fields, the crops were - generally poor. But the above losses have been made good by the excellent harvest in the I Class and the normal crops in -- the II Class wet lands.

× an old term used previously to denote low lands on the highest level, depending solely upon rainfall for their water supply & followed by the people of the district to denote III class wet lands.

2. Under B.S.O.14(10)(iii), in deciding whether relief is -- necessary or not, regard should be had not merely to the field affected but to the entire property or holding of the land-lord or ryot to whom the field belongs and by whom relief is applied for. Considering the above facts, there is no case for ------ remission of land revenue in this fasli.
